About Me

I am a Computer Engineer , and my passion for design led me to specialize in frontend development. I have worked with both governmental and private sectors, gaining experience in education, tourism, and e-commerce. My roles as an employee and freelancer have honed my skills in various programming and design languages. I excel in ensuring the technical feasibility of UX designs and delivering high-quality, user-centric solutions

EXPERIENCE

Senior Frontend Developer, ZAD Group

Istanbul, Turkey — Nov. 01, 2021 / to present

- Programmed an e-commerce website for certificates, including building its own dashboard, and supervised its design and user experience.
